

Kothari International School

Grade 1

Fun with Calendar

'Fun with Calendar' was an online activity organized by Grade 1 on Friday 4th December, 2020. Keeping in mind the importance of time management and significance of a calendar in our everyday lives, the students displayed their creativity and imagination by beautifully designing, scheduling and marking their birthdays, weekend plans and weather forecast for each day etc. It was a great opportunity to observe these juvenile minds creating, displaying and engaging themselves with much enthusiasm for being an organised learner of future and developing their respective personalities, a trait which Kothari International School always strives for all its students.
