

Kothari International School
Grade 1
Activity- 'International Spectrum'

In order to help our Grade 1 children learn about the diverse world we live in, an activity 'International Spectrum' was conducted on Friday, 26th February 2021. Our little globe trotters acquainted us with the cultures, heritage, salutations, cuisines and currencies of different parts of the world. They also introduced the other aspects such as language, tourist places, dance forms, handicrafts and so on. It was a fun-filled virtual session as our young learners beautifully showcased their creative streak while exploring the wonders of world. Their dazzling and captivating presentations mesmerized the parents and teachers. A big Thank You to our little stars of the day for helping us discover the unique colours of the world.
