Grade 1

Activity – The Treasure Box

Albert Einstein once said 'Imagination is more important than knowledge' and it is a known fact that imagination has no boundaries. Thus in order to capture the same, 'The Treasure Box' was organized for Grade 1 students on Friday, 9th April 2021 through a virtual session. The young learners were suppose to pick up any one object like their favourite toy, dress, book etc from their treasure box, unleash their innocent thoughts and speak few lines on their favourite choice after showing the same. The event saw interesting participation by all students and it enriched their confidence and creative vocal skills.
