

KIS/DEC/21-22/ 253

Grade 10

17.12.2021

Dear Parent,

In continuation with the series of KIS Enrichment Programme, the theme for the forthcoming Student-Parent Session will be-

"Orientation Level 1: Selection of Subject Combination for Grade 11"

KIS has collaborated with a team of experts at **EXTRAMARKS** for a **Career Assessment Programme**. This session will help your ward in understanding how important it is to identify their strengths and weaknesses and individual abilities for future choices of subjects and career, through Aptitude Testing.

Career experts will address the following issues in the session:

1. The confusion resulting from a plethora of career choices
2. The stress of parents' aspiration to consider a particular career field
3. Handling peer pressure while selecting stream, course, and career
4. Relevance of career assessment at this stage
5. Various subjects, scope, and how to choose the right one?

The school will be organizing an Aptitude Test to facilitate students to make the right choices for the subject combinations in Senior Secondary School. This would help the students in understanding and then decide upon their dominant characteristics and thereby make an **informed decision** for their careers accordingly.

KIS offers a variety of subjects/ combinations to the students to choose from. Enclosed is the list of the same, kindly go through it as well.

We request you to join us in helping your ward to plan and decide his/her future career based on his/her strengths, interests, and abilities.
