KIS/JAN/22-23/011

Grades K-12

18.04.22

Dear Parent,

It has been exciting to have students back on the campus and our classrooms once again echoed with laughter and joy. As we were successfully unfolding the joyous learning on campus, unfortunately the rise in numbers of cases in Noida have been noticed.

Keeping in mind the safety and wellbeing of our students and staff as per the government advisory we have taken following actions:

- Regular sanitization of school campus and bus is being done.
- All the teachers and ancillary staff are doubly vaccinated.
- Temperature scanning and sterilization of each student is done at the gate.
- Tables are assigned section wise in dinning hall to maintain social distancing.

As we move forward and adjust to the "new normal", we cannot help but acknowledge that COVID-19 will henceforth be a part of our living and we all need to adjust to the changes without compromising on health & safety. We request the cooperation of the parents for the following:

Advisory for the Parent School COVID Prevention Advisory Panel:

- In case your ward is having any symptom like of fever, cold and cough, you are requested not to send him/ her to the school.
- If there is a COVID infection in the family, kindly inform the school authorities and do not send the child to school.
- Parents are advised to ensure that their ward should wear a N95 mask preferably. You are requested to send daily two extra mask and a bottle of sanitizer with your ward.
- Parents/ visitors will not be allowed to enter the school premises without a mask and the authorization card.

SOP if any Covid Positive case is reported: As per the govt. guidelines

- Particular section/wing in which the case is reported offline (physical classes) will be suspended for minimum two days.
- The reported student will not be allowed to attend school for atleast one week or till the symptoms persists.
- Parents and Authorities will be informed.

Warm wishes,
Regards,

Dr Sangeeta Arora
Principal
