## Science Slam Competition

12/07/2023

Dear Parent,

KIS believes in providing opportunities beyond the textbooks to promote a spirit of enquiry amongst the students.

To enhance the learning process KIS presents an opportunity for students from class **9<sup>th</sup> to 10<sup>th</sup>** to participate in a **Science Slam competition** organized by Goethe Institut/Max Mueller Bhavan, an internationally recognized organization. Our students have consistently taken part in various activities organized by Goethe- Institut and have learnt a lot. We would appreciate if students of our school participate in the above mentioned competition.

### **Please read the information and few instructions regarding the competition:**

A science slam is a tournament for scientific/ technical topics that are presented in a fun and interactive manner within the stipulated time. Apart from the scientific content, the entertainment value and presentation's quality remains in focus.

Suggested Topics: Robotics, Space travel, energy, natural sciences, and sustainability ...

**Round 1:** Tell us in the form what your topic is and why is it relevant. Based on your answers, selected participants shall be invited to join the next round.

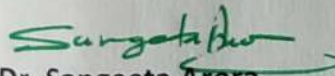

**Round 2:** The selected participants will try to impress the jury and the audience with their presentation skills within 1 Minute in an online Zoom session. (Tentatively 1<sup>st</sup> week of August) Based on audience voting and jury's decision, shortlisted candidates get the invite for the final round.

**Round 3:** Invited candidates present their Science Slam live at Max Mueller Bhavan on 31.08.2023 in front of the jury.

Participation is based on first cum first basis as only three students per school are allowed to participate in the above mentioned competition.

You can give the consent physically or send the signed consent form to **Ms. Harpreet Kakkar** on her number **(9871858309)** latest by **15.07.2023, Saturday**.

Best Regards

  
Dr. Sangeeta Arora  
Principal
