Reading Comprehension
Reading a Book

Sanaya didn't have many friends, but she has lots of books. Books are better than friends sometimes. Books don't get angry at you or argue with you. Books don't feel sad when you don't come to see them for a while. Sanaya likes fantasy books. They have lots of adventures. She feels like she is in them. She can be a princess or an adventurer. She can see lots of monsters and amazing places. There are mysteries to solve and battles to win. It is great to read about fantasy. Sometimes she likes history books, too. It is interesting to see how people used to live. It is strange to imagine how things used to be before all of the inventions.

Sanaya also likes science books. She likes books about animals and faraway places. Especially, there are so many different animals in the world. This curiosity made her a zoologist (a scientist who studies animals), so she can travel and see new animals living in strange places. Books are great, but they are better with friends to talk to about them!
