

KOTHARI INTERNATIONAL SCHOOL, NOIDA
ACADEMIC SESSION – 2023-2024
ASSESSMENT FOR LEARNING - GRADE 4
SUBJECT – SOCIAL SCIENCE
SECTION 2

Duration: 45 Minutes

Name: _____

Class: _____ **Section:** _____ **Date:** _____

General Instructions:

1. This paper consists of 2 printed pages.
2. Read all the questions carefully.
3. All the questions are compulsory.

I. Answer in brief.

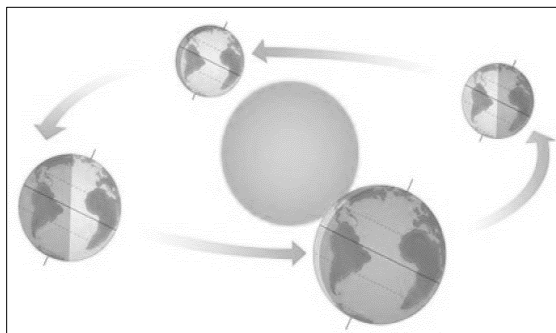

Q1. How did miniature paintings become popular?

Q2. Why is fish so popular in Kerala?

II. Answer the following questions.

Q1. India is culturally a diverse nation. Do you agree with this statement? Give 2 reasons in support of your answer.

Q2. Identify the movement of Earth shown in the picture. How much time it takes for the Earth to journey around the Sun?

- a) If there is daytime in North America, what will be there in Asia?
- b) When it is summer in the Southern Hemisphere, what season is it in the Northern Hemisphere?
- c) Which festival do you celebrate in the spring season that relates to colours?

Q3. Why do houses in Kerala have sloped roofs while houses in Rajasthan have flat roofs and thick walls?

Q4. People in Punjab depend on agriculture for their survival. Justify the statement by describing the major crop of Punjab. Also, mention any two food items that can be made out of this crop.

III. Read the passage and answer the questions.

India is closer to the equator. We have different climate. The hottest months come earlier in the year, and we have a long rainy season, also called Monsoon season. In India, and the rest of the Northern Hemisphere, from March to September, the days are longer than the nights. The longest day of the year is June 21st. Due to climate patterns, India gets its summer a little earlier than most places in the Northern Hemisphere. The hottest months are April, May, and June; the weather is usually hot and dry. In some places, people have to be careful to store enough water as there is a shortage of water supply.

- a) Due to climate patterns, identify the season India experiences a little earlier. Mention the hottest months of the year.
- b) Suggest two ways by which you can save water.

IV. Write a short note on how are seasons caused.

V. Look at the given images and write the states where these two Indian dishes are popular.
