

KIS/APR/23-24/015

GRADE 6

4/04/2024

Dear Parent

Namaskar!

**Kothari International School** has envisioned adopting a development-centric education for a long time now. We, at KIS, believe in the holistic development of children to ensure that every facet of their personality is refined at an optimum level. Therefore, in sync with the changing and progressive trend of educational practices, we are pleased to incorporate the **skill-based education** into the curriculum of the **Upper Primary Level**.

Skills-based learning helps in development of competency of the students in context with the real world.

At KIS, we have devised a skill-based learning pedagogy for **Grades 6 to 8** to meet the demands of the modern world. This will enable them to be resilient and be prepared for the world that awaits them after school.

A team of efficient and experienced teachers will be responsible for shaping young minds and facilitating the student with these skills.

**For Grade 6, we are offering the following skill subjects:**

- **Artificial Intelligence**
- **Handicrafts**
- **Coding**
- **Financial Literacy**

Kindly note that **Artificial Intelligence and Coding** have been integrated in the ICT curriculum. **Handicraft** has been included in the Visual Art curriculum, so no extra session will be scheduled for the same.

If you are interested in enrolling your ward in **Financial Literacy**, you are requested to **kindly fill in the google form** attached with the circular.

This program will run **online** on the **1<sup>st</sup> and the 3<sup>rd</sup> Saturdays of each month from 10 am to 11 am**.

An amalgamation of Skill-based learning and Knowledge-based learning will facilitate the development of competencies in terms of knowledge and critical thinking skills, practical skills, and personal and social skills.

Warm Regards

Dr. Sangeeta Arora

**Principal, KIS**
