KIS/2024-25/APRIL/054

18.04.2024

Dear Parent,

Namaskar!

Pratiti-The SDGs Club, Kothari International School, is all set to make a sustainable difference again by inviting you all to participate in our upcoming drives – **Goonj's "Khushiyon ka Recycle"** and **Dry-Waste Collection drive**. The drives will commence from **21-04-2024 to 28-04-2024**. For student's convenience, a collection bin for each drive has been placed on each floor of the senior block building. The details of the drives are mentioned below.

DRY-WASTE COLLECTION DRIVE

Daily 15000 tonnes of plastic wastes is generated in India. Plastic waste is adding up to so many problems like air pollution, reduced water absorption capacity, increased toxicity of soil and water, reduced growth of plants, illness and deaths in animals, and major health risks to human health too. So, it is imperative to take a serious and diligent action towards the causes. Keeping the concerns in mind, our club is inviting you all to join hands in fighting this menace by reducing and recycling the dry wastes, primarily plastic wastes available in your homes. You can bring **cardboards, wrappers, broken plastic home decor items, broken plastic furniture, soft drink and medicine bottles (washed and dried up), polythene bags, old X-ray films, empty medicine strips, plastic nets**, etc. Let us lead the change and bring a difference by rising up together for a sustainable future.

Warm regards

Dr. Sangeeta Arora

Principal

Kothari International School, Noida
